WOOL

FOR CONFEDERATE STATES ARMY.

Office of Chief Wool Agent of Confederate States,

For District "A."

Savannah, May 20, 1864.

Arrangements having been perfected with the State of Georgia, by which all the Agents of the State for the purchase of Wool have been withdrawn, I hereby give notice to all interested, that *no* person is authorized to purchase or barter for Wool for either the Confederate or State account, or for any Factory or Factories in the Counties of

CHATHAM,	SCRIVEN,	APPLING,	McINTOSH,	BURKE,
LIBERTY,	BULLOCH,	EFFINGHAM,	TATTNALL,	EMANUEL,
BROOKS,	THOMAS,	COLQUITT,	PIERCE,	CLINCH,
WARE,	CHARLTON,	COFFEE,	WAYNE,	GLYNN,
CAMDEN,	LOWNDES,	BERRIEN,	ECHOLS,	BRYAN,

and such portion of Montgomery County as lies east of the Oconee River, *except such as hold appointments from me.*

Private purchasers and speculators are requested not to come into competition with these Agents, as the necessity will be forced upon the Confederate Government to impress all Wool held or bought by such parties.

The very liberal terms of exchange offered by the Confederate Government, as well as the fact that the Wool is wanted for the manufacture of Clothing for the Soldiers in the field, ought to induce all Wool growers to aid the Government in the securing of Wool, and not force upon its Agents the necessity of impressment.

Any person having a detail refusing to sell his Wool to the Confederate States Government, (whether grown by himself or obtained by purchase) or selling it to others than Confederate States Agents, *except in small quantities to Soldiers families*, will forfeit his detail.

WM. HUNTER,

Chief Wool Agent District "A."

Permalife.
